节能电机

POWER SAVING MOTOR

JK-513C

JACK 杰克

型号 JK-513C-25A
Model

危险 Warning:

1. 系统必须接地，否则有触电危险。
1. Electronic shock will occur if no ground connection.
 2. 系统接入严禁超过250V电压的电源。
2. Forbid to adopt power over 250V.
 3. 严禁打开驱动器或电机的前后盖。
3. Forbid to open front and back covers of power drive system: S1.
- 使用前请详细阅读使用说明书。
Carefully read manual operation book.

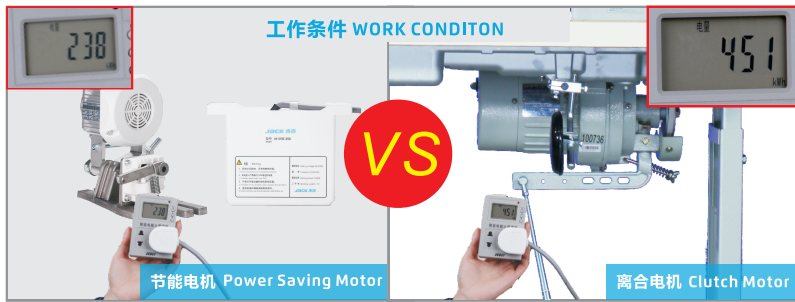

额定电压 Rating voltage (AC)220V

频率 Frequency 50/60Hz

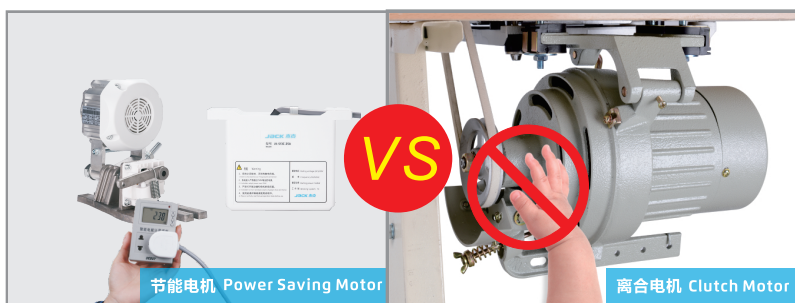

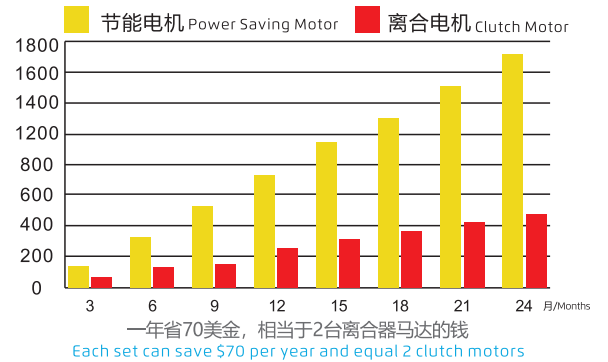

额定功率 Rating power 550W

系统: S1

优点: Advantages:

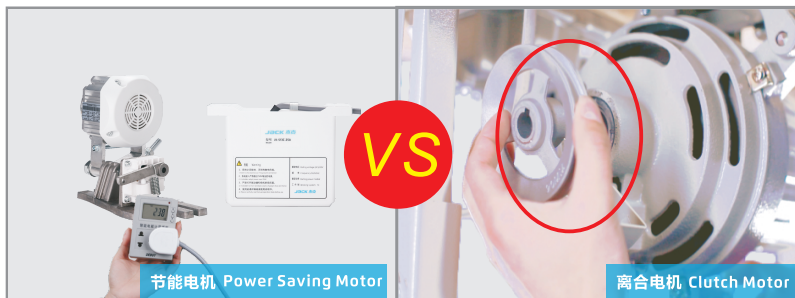

1 省电71% Power saving 71%

2 直驱 Direct drive
直驱, 安全缝纫
Direct drive, run safety.

3 高速, 速度可调 High speed, adjustable
速度调整快捷
The speed could be adjusted very easily.

4 维修快速简单 Quick and easy maintenance
集成电机, 零件少, 维修方便。
Quick and easy maintenance with integrated motor and fewer parts.

5 较低的工作温度保证了电机的长寿命。
Lower temperatures while the motor working guarantee longevity of the motor.

6 低振动、低噪音, 为操作者提供更好的工作环境。
Lower motor vibration and noise make the operator a better working environment.
